GRADUATE
RESEARCH
CONFERENCE

UCALGARY'S
MULTI-DISCIPLINARY
GRADUATE RESEARCH
CONFERENCE

»» *Impact starts here.*

Talk Details

With the virtual platform [Gather.town](https://gather.town), the Presentation Session will happen over Zoom. When it is your turn to present, the moderators will call you up to the stage. Once you are on the stage, you will share your presentation, and your video that will broadcast out to the audience. Our moderators will be there to track the questions in chat and pose selected questions to you.

Presentations are 10 minutes long with 2 minutes for questions.

Presentation spots are limited. If we have a lot of students wanting to present a talk, we may have to ask some to develop a poster instead.

To help us run the conference, we may ask for your presentations to be submitted to us prior to the event starting. You will receive follow-up instructions once we confirm that you will be doing a presentation.

We will also be providing orientation sessions to [Gather.town](https://gather.town) in February, and may schedule a production run prior to Peer Beyond starting.

If you want to know more about [Gather.town](https://gather.town), you can check out these links:
