 - Access to grievances
 - Pays at an hourly TA rate of \$45.67 an hour
- LOU: Lump Sum (\$400)
 - Exceeds retroactive for any single term of contract except for a 1.0 GAT (which would have been approx. \$422 for a semester)
 - Bargained an extra \$100 (from \$300)
 - Paid to current students that held a contract from Fall 2023 to Fall 2024
 - "Cash in hand" (not part of minimum funding guarantee)

Does the bargaining team recommend this deal?

- **YES.** The bargaining team would not bring any deal to a ratification vote if we did not endorse it and think it was a fair deal for our fellow workers. We are all AEGS, and benefit (or not) the same as any of our fellow workers.
- It provides the vast majority of AEGS an immediate payment of 400\$, and a 4.75% increase to your pay immediately. While this does not reflect the economic struggles of AEGS that have gone years without a pay increase, it is a big step in the right direction
- It provides 4 years of certainty, no cuts or freezes to wages, and protection against inflation.
- Provides considerably better benefits surrounding leaves, and grievance procedure timelines, amongst other non-monetary protections
- Carve outs for parents and people dealing with personal matters
- Time and a half vacation pay, and protections around working during holidays

What next

Ratification is 50% plus 1

If ratified (i.e. vote yes) bargaining is over

- New agreement!
- Focus on grievances, providing info, and working out kinks/bridging gaps in the new agreement
 - Revive Joint Committee to monitor and work out issues
- Capacity building
 - Establish union structure, strong community
 - Build up strike fund and get ESA by next round in 4 years

If not ratified (i.e. vote no) bargaining will likely resume in fall

- Some offers may be taken off the table
- Capacity may have to shift to ESA negotiations
- No increase in dues collected, which may limit capacity for growing a strike fund. Work on getting ESA will likely be costly
- There will still be a focus on grievances and capacity building

The Vote:

- You will receive an email when voting opens
- Voting runs for 48 hours
- 00:01 Monday **March 24** until 23:59 Tuesday **March 25**
- Simple yes or no ballot, on platform Simply Voting
- Overseen by GSA Election CRO Ahmed Inzamam Chowdhury
 - Contact: cro.gsa@ucalgary.ca
- Only “academically employed graduate students” **actively** enrolled and employed on the dates of the ratification vote eligible to vote and can cast a ballot in the ratification vote.**

**Terms are based on a legal opinion that, pursuant to the Postsecondary Learning Act, SA 2003, c P-19.5, “academically employed graduate students” must be (1) actively enrolled graduate students at the University of Calgary, and (2) actively employed by the BOGUC as “academically employed graduate students

Timeline (past 3 months)

Dec 5-6, 2024 – Informal mediation

Jan 2025 – Next Bargaining meeting cancelled
by previous bargaining team

Feb 13 – Employer emails membership

Mar 10 – Mediator cancels due to CUPE strike

Mar 11-12 – Both teams agree to meet for
two full days of bargaining

Mar 12 – Tentative deal reached

Reaching an offer

- More progress following the December meeting
 - Employer made significant movement on many articles, including monetary (exceeding our ask), marker grader positions (**MASSIVE WIN**), access to contracts, and more.
 - We cautiously reintroduced some items, and proposed a brand new one, and were able to negotiate the Employer's acceptance of most of them
 - Office space
 - Maternity leave

Reaching an offer

- Reviewed past progress, areas of common ground, and "the chopping block"
 - Outstanding items we would "die on the hill for"
 - Marker graders=bulletproof
 - Access to contracts
 - Lump sum payment inline-close to full retro for a semester
 - Items we would continue to push for
 - Maternity leave stipulations
 - RAs compensation (raising the floor from \$18 an hour)
 - No Clawbacks
 - Items that we could concede, or we would never realistically see movement on
 - Housing allowance (but did contemplate working in language)
 - Funds for Union operations
 - Pegging pay increases to tuition (we did functionally get this)

Political and Economic Context

- Provincial deficit: \$5 billion dollars
- UofC budget shortfall: ~ \$11 million dollars
- This UCP government history (cutting Uni funding, NOT pro labour)
- Current funding to post-secondary is an inflationary cut.
- Potential Poilievre government, or even new Liberal government, spending cuts could also impact research funding
 - Research funding cuts would impact the University of Calgarys budget
- Uncertainty around Trump tariff could lead to a recession
 - Last recession AUPE (UCalgary Support Staff) were asked to take pay cuts
 - In the 90s they took 7% pay cuts
- **Lost strike leverage. ESA likely > a year away**

Input from membership

- **It has been a long 3 years, and there was (and is) a desire for a deal soon, with a balanced approach**
- While the email from the employer was not appreciated, it did generate feedback from membership to the GSA about their thoughts and feelings on bargaining
- December offer inoffensive, and addresses some, but not all "sticking points"
 - Signalled considerable movement on some outstanding articles
- Monetary offer (including lump sum payment) was... okay.
